Work Experience - Internship

Python Full Stack Developer Trainee *UNIQ TECHNOLOGY*

July 2024 - Present

- Developed and maintained web applications using Python and Django frameworks.
- Collaborated in Agile workflows using Jira for project management.
- Implemented CRUD operations and backend functionalities for dynamic web applications.

Education

Bachelor of Engineering in Computer Science - 7.43 GPA

Sep 2020 - June 2024

Bharathidasan Engineering College

Project

Django Ecommerce Application

Jan 2024 - Mar 2024

- Developed a fully functional e-commerce website using the Django framework.
- Utilised Django ORM for efficient database management and seamless data retrieval.
- Enhanced usability with features like user profiles, session management, and a product search functionality.
- Conducted extensive testing to ensure the platform's scalability, performance, and security.
- Hosted the project on GitHub for demonstration and further development.

To-Do List Application

July 2024 - Sep 2024

- Built a To-Do List app with CRUD operations using Flask.
- Designed intuitive user interfaces for task management with HTML, CSS, and Bootstrap.
- Implemented form validation for data integrity and error prevention.
- Added session management for user-specific task handling.
- Enhanced user experience with features like task prioritisation, due dates, and status tracking.
- Performed extensive testing for smooth functionality and bug fixing.

Skills

- Programming Languages: Python, SQL
- Frameworks: Django, Flask
- Web Development: HTML, CSS, JavaScript, Bootstrap
- Database Management: SQLite, MySQL
- Tools: Git, Jira

Certificate

MySQL Essential – SCALER

Python Essential – LinkedIn Learning
